Kitchen/Family Room Update

[Designing for the Sexes : Episode DSX-711](#) -- [More Projects »](#)

Before

After

Connie and Jim Edwards have lived in their home for several years. With frequent visits from their grandchildren, they think that their family room and kitchen area is in dire need of a makeover. Connie's style is traditional while Jim prefers a simpler, plain look. In fact, he wouldn't mind if the two rooms remained the same! Host and interior designer Michael Payne and interior designer Karla Beasley Holland whip up the perfect compromise that gives the couple a bright and cheery room that is sure to satisfy their family for many years to come.
